# LOW TEMPERATURE CIRCULATOR BCLT-401

We offer you robust circulators equipped with microprocessor controller for high heating and cooling experiments. Fitted with adjustable casters, corrosion resistant interior and exterior, these circulators are a perfect fit for any environment.
Used in Enzyme reactions, Immunoassay, Incubation, Laboratory, Research, Medical, Pharmaceuticals.
Also known as Laboratory water bath.

## BCLT-401 LOW TEMPERATURE CIRCULATOR

- PID controller offers precise temperature control and uniformity
- Corrosion resistant inner and outer chamber made of stainless steel
- Dual LED screen displays temperature and time
- Protection against compressor overload, high/low voltage and current
- Convenient and reliable operation
- Equipped with caster for easy installation

## SPECIFICATIONS

| Model | BCLT-401 |
|---|---|
| Capacity | 8 L |
| Temperature Range | -20°C to 100°C |
| Top Opening | 120x120 mm |
| Inner Dimension (WxDxH) | 150x300x200 mm |
| Outer Dimension (WxDxH) | 400x470x850 mm |
| Power | 192 W |
