

MANUAL WHEELCHAIR BHBD-907

MANUAL WHEELCHAIR BHBD-907

Wheelchair is mainly used as a manually operated or power-driven device designed with double cross-shaped brackets, which enhance the safety of the structure. In the meantime, adjustable armrests, quick disassembly of footrest, positioning of Controller and other functions reflect the user-friendly design, and provide great convenience for the user.

Used in Patient Indoor-outdoor locomotion, Patient transfer.

Also known as Patient transfer wheelchair, Transport wheelchairs.

BHBD-907 MANUAL WHEELCHAIR
