Adopting modular design, the three parts of water Flattening Bath, Drying slice and Baking slice have independent temperature control accurately. Black enamel polymer bleaching tank, clear contrast when fishing, easy to operate. Unique corrugated drying slot design, the slides are inserted at an oblique angle of 60°, which is convenient for actual operation, and can handle 40 slides at the same time. The baking sheet room can hold 3 dyeing racks of 30-40 sheets, and can also put 2pcs 250ml beakers to melt the wax at the same time, which can satisfy High-volume work requirements. The baking room can set different baking time according to the temperature, and there is an audible alarm.

## SPECIFICATIONS

Model	BHTP-608
Dimension	510×340×220 mm (WxDxH)
Dimension of Water Bath	190×140×70 mm (WxDxH)
Temperature control range	Three parts all adjustable from 30 - 90 °C, automatic constant temperature
