

WATER WASHOUT RESISTANCE TESTER BPTL-225

WATER WASHOUT RESISTANCE TESTER BPTL-225

Petroleum testing is the analysis during upstream, midstream, and downstream production processes of petroleum products. It is most commonly used to test petroleum product, its product components, byproducts of crude oil, fuel, natural gas, upstream oil and gas and other formats of petroleum.

Used in Petroleum Industry, PVC Pipe Industry.

BPTL-225 WATER WASHOUT RESISTANCE TESTER

Unique design, no need to start test shaft, and start water pump circulating system independently. Upgraded connecting shaft can quickly install and dismantle bearing and inside and outside baffle.

SPECIFICATIONS

Model	BPTL-225
Motor	fixed speed 600 rpm
Temperature	Control test temperature at 38 °C and 79 °C as per ASTM standard
Independent start	Test shaft and Start water pump circulating system
Shaft	Upgraded connecting shaft can quickly install and dismantle bearing and inside and outside baffle
