

# HIGH FREQUENCY DESKTOP ULTRASONIC CLEANER BULC-508

### HIGH FREQUENCY DESKTOP ULTRASONIC CLEANER BULC-508

High frequency ultrasonic cleaner is mainly used in medical industry, computers, microelectronics computers. It uses high frequency to clean the sub micron dirt without damaging the equipment

Also known as Digital ultrasonic cleaner, Ultrasonic cleaning bath, Ultrasonic cleaning tank.

## **BULC-508 HIGH FREQUENCY DESKTOP ULTRASONIC CLEANER**

Digital display and control ultrasonic power adjustable range from 0 to 100% Special high frequency ultrasonic transducer (53/68/80/100/132 Khz)

No stud- welding technology, Cleaning effect is better

MCU SWEEP multi frequency ultrasonic generator output, frequency sweep drive ultrasonic cleaning effect more powerful

MHC heating system, maximum temperature is up to 80°C

All stainless steel material inner tank is made by punching SUS304 1.0mm 2500V high voltage test to ensure the product safety, strict production, aging production quality control

## **SPECIFICATIONS**

| Model                | BULC-508                                |
|----------------------|---|
| Capacity             | 22 L                                    |
| Working frequency    | 53/68/80/100/132 Khz                    |
| Ultrasonic Power     | 480 W                                   |
| Heating power        | 600 W/220V 500 W/110V                   |
| Timing time          | 1- 99 mins                              |
| Temperature range    | 0-80°C                                  |
| Power regulation     | 0-100 %                                 |
| Drain valve          | Yes                                     |
| Washing basket       | Optional                                |
| Inner tank dimension | 500x300x150 mm                          |
| Packing size         | 500x300x150 mm                          |
| Gross weight         | 14.51 Kg                                |
| Power Supply         | 220V+ 10% 50Hz/60Hz 110V+ 10% 50Hz/60Hz |
