

## HEATING MANTLE BER1BW9

# HEATING MANTLE BER1BW9

SEVERAL ROWS MAGNETIC STIRRING

1. 98-IV-B: Electronic temperature regulation heating mode.
2. 98-V-B: Electronic temperature regulation heating mode. heating and stirring can proceed simultaneously; stepless speed adjustment.
3. 98-V-B model without 100ml
4. Up to 450°C general heating stirring equipment.

## SPECIFICATIONS

|                          |                                           |
|--------------------------|-------------------------------------------|
| Model                    | BER1BW9                                   |
| Function                 |                                           |
| Specification(ml)        | 6x100                                     |
| Heating Mode             | Surface heat conduction                   |
| Surface Max. Temperature | 450°C                                     |
| Temp. Range              | Rt+vfc20~250°C                            |
| Speed Range              | no                                        |
| Structure                |                                           |
| Heating Element          | Nickel chromium alloy wire                |
| Stir Bar                 | no                                        |
| Outer Shell              | Cold rolled steel plate, surface spraying |
| Motor Power              | no                                        |
| Heating Power (kW)       | 6x0.1                                     |
| Controller               |                                           |
| Work Model               | Continuous                                |
| Specification            |                                           |
| Exterior Size (mm)       | 820*140*160                               |
| Packing Size (mm)        | 850*250*190                               |
| Voltage                  | 200-240V                                  |
| N.W. (Kg)                | 12                                        |
| G.W. (Kg)                | 15                                        |
| Alt Name                 | Heating Mantles                           |

## MORE INFO

1. Accessories: Adjustable Sensor Rack with Stainless Steel Rods or Horizontal rods.
2. We can produce different rows heating mantle as a customer's requirement.
