

## GENERAL PURPOSE OVEN BEV1T1 (BOGP-101)

# GENERAL PURPOSE OVEN BEV1T1

## GENERAL PURPOSE OVEN

Designed for continuous drying operations , general purpose ovens provide temperature homogeneity regulated by microcomputer control systems. Stainless steel interiors with easy to clean surface while silicon rubber sealing prevents heat loss and gives stability during operation.

- Micro-computer intelligent control system with LED display
- Forced air convection maintains temperature uniformity
- High quality stainless steel inner chamber with electrostatic spray treated exterior
- Large observation window
- Easy to clean semicircular corners with adjustable shelves
- Silicon rubber sealing ring prevents heat loss
- Over temperature alarm with timer

## SPECIFICATIONS

|                                                |                      |
|------------------------------------------------|----------------------|
| Model                                          | BEV1T1               |
| Old Model                                      | BOGP-101             |
| Internal dimension/capacity (HxWxD) mm / liter | 350x350x350          |
| External dimension (HxWxD) mm                  | 530x640x550          |
| Package dimension (HxWxD) mm                   | 650x720x630          |
| Voltage (V)                                    | 220                  |
| Power (W)                                      | 1200                 |
| Temp. Range (°C)                               | RT+5°C~250°C         |
| Temp. Precision (°C)                           | ±0.5                 |
| Floating Range (°C)                            | ±1%                  |
| Weight (KG) (Wooden shelves included)          | 38                   |
| Alt Name                                       | General Purpose Oven |

## APPLICATIONS

Drying, Roasting, Laboratory, Research, Engineering, Industry, Agricultural, Biology

**Biolab Scientific Ltd.**

Trillium Executive Center, East Tower, 675 Cochrane Dr, Markham, Ontario L3R 0B8, Canada
