

MAGNETIC STIRRER BFA1CM2

MAGNETIC STIRRER BFA1CM2

MULTI-POINT ULTRA-THIN MAGNETIC STIRRER

The multi-thin ultrathin magnetic stirrer can precisely and stably stir the liquid in a wide range, especially suitable for small volume samples, and is an essential tool for petroleum, chemical, environmental protection, education and scientific research.

Ultra-light and ultra-thin, novel appearance, compact size, saving experiment space.

The controller and the agitator are separated. The number and combination of stirrer can be adjusted arbitrarily, up to 6 stirrer.

Adopt the connection method of USB interface, easy to plug and unplug.

Each stirrer has its own speed and time, which makes it easier to compare experiments.

Touch keys and sliding touch adjustment, durable, novel and fashionable.

Advanced non-wearing magnetic coil technology, the operation is quieter and more stable, and the service life is longer.

The LCD screen displays the parameters in real time, the LED indicator shows the working status, and the instrument running status is more intuitive.

SPECIFICATIONS

Model	BFA1CM2
Type	Stirrer
Max. stirring volume (H2O)	1L
Motor output power	4W
Speed setting (running) range	(20-1500rpm)
Timing range	-
Display method	-
Working plate material	PVC
Working plate size	Φ120mm
Dimensions	W.120xD.120xH.19mm
Weight	0.18kgs
Power adapter input	-
Power adapter output	-
Alt Name	Multi-point ultra-thin magnetic stirrer
