APPLICATIONS

Emergency Rescue Food

Freeze-dried food for emergency reserves. Nutrient-rich, easily digestible, quickly restores energy, maintains physical strength, and achieves balanced nutrition.

Outdoor Food

Freeze-drying technology preserves nutrients and favors offering light weight and flavorful meals for outdoor adventures.

Healthy Lifestyle

Freeze dried vegetables and food retain the color, aroma, taste, shape and original ecological food nutrients, and are a natural, green, safe and convenient nutritious food.

Pet Food

Freeze-dried meat and eggs are an innovative choice for pet food. The freeze-dried raw materials are rich in high protein and vitamins, which help maintain the healthy weight and good digestive function of pets.
