COOLING INCUBATOR BGE-101

BIOCHEMICAL INCUBATOR

The shell is made of cold-rolling steel with static spray plastics, the working chamber is made of mirror or stainless steel, the shelves can be adjusted optionally;
PAMMA I control system;
With timing functions;
Lighting device in working chamber (mould incubator is equipped with UV light);
Large vie wing angle he at preservation vacuum toughened glass;
Power supply recovery function, data will not be lost when power failure and system halted.

SPECIFICATIONS

Model	BGE-101
Capacity	100L
Temperature Range	0-50℃
Temperature Accuracy	
Temperature Resolution	0.1℃
Temperature Fluctuation	±1℃ Heating, ±2℃ Cooling
Temperature Uniformity at 37℃	±2℃
Type	Biochemical Incubator
Internal Dimensions (W*D*H)	450*380*585mm
External Dimensions (W*D*H)	580*570*1070mm
Power	300 W
Timer Range	0-999 h
Shelves (Standard/Max.)	2/3
Load per Shelf	15 kg
Net/Gross Weight	62/92 kg
Package Size	680*670*1240mm
Alt Name	Biochemical Incubator

APPLICATIONS

The product is applicable in scientific research institutions, universities and colleges, manufacturing enterprises for environmental protection, sanitation and epidemic prevention, drug testing, farm livestock and aquatic products. It is a dedicated thermostatic equipment for water analysis, cultivation and conservation of bacteria, mould and microorganism by BOD measurement, planting and breeding experiments.
