

ELECTRIC HOSPITAL BED BHBD-420

ELECTRIC HOSPITAL BED BHBD-420

AUTOMATIC BED

An electric Hospital Bed is ideal if you're searching for a bed that can be completely controlled with the click of a button. Features with integrated multi-function and can fulfil the needs of various operations. Electric hospital beds allow height adjustment, as well as providing optimal height for caregivers to work with patients; raising of the head, including into Fowler's position, to allow for feeding, ease of breathing and other benefits resulting from reclining upright; and raising of the feet to help with ease of movement and blood flow.

With the nurse controller and CPR function
Bed board adopts HPL board, x-ray photograph for whole body is available
2 step adjustment at shank section
