

## -86°C ULTRA LOW TEMPERATURE UPRIGHT FREEZER BGY-3106

# -86°C ULTRA LOW TEMPERATURE FREEZER BJY-3106

## VERTICAL ULTRA LOW TEMPERATURE FREEZER

Efficiency & Reliability  
Self-compounding system for superior cooling  
Famous compressor with more stable performance and longer using life  
LED/LCD Display  
Real-time display of operating status, more intuitive and clear  
Wide Voltage Design  
Stable operation between 187V-242V. Freezer can be worked stably in unstable voltage  
Safety Design  
Double lock, double protection

## SPECIFICATIONS

|                   |                                        |
|-------------------|----------------------------------------|
| Model             | BJY-3106                               |
| Capacity          | 308L                                   |
| Temperature Range | -86°C                                  |
| Outer size(W*D*H) | 810*760*1810mm                         |
| Inner size(W*D*H) | 570*485*1140mm                         |
| Alt Name          | Vertical Ultra Low Temperature Freezer |

## APPLICATIONS

For preservation of viruses, bacteria, cells, skin tissues, biological materials, etc.

**Biolab Scientific Ltd.**
