

FILTRATION CENTRIFUGE BKE-3001

SPECIAL PURPOSE CENTRIFUGE BKE-3001

BENCHTOP FILTRATION CENTRIFUGE

Use all steel structure, stainless steel chamber, corrosion resistance.
AC frequency-variable motor drive, running smoothly and quiet.
The digital display screen.
The operation can change the parameters at any time, without closing down.
Automatic calculation and display of centrifugal force RCF.
Adopts electronic locks, enhanced security.
Gather washing and drying, dehydration, concentration and filtration together to achieve solid-liquid separation.
The special combination of vibration, automatic balance, low noise.
Solved filtration pressure, vacuum filtration and low efficiency.
The separation function is continuous, free and independent filter cartridge loading, high separation efficiency.

SPECIFICATIONS

Model	BKE-3001
Max. Speed	4000rpm
Max. RCF	2800xg
Max. Capacity	
Handling capacity	8-10L/min
Carrying capacity	250ml
Timer	1min~99min
Revolutions/min	±20r/min
Voltage	AC 220±22V 50Hz 10A
Power	400W
Outer Dimensions	310x360x440(mm)
Package Dimensions	410x460x540(mm)
Net weight	28kg
Gross weight	35kg
Alt Name	Benchtop Filtration centrifuge

FEATURES

Use all steel structure, stainless steel chamber, corrosion resistance.
AC frequency-variable motor drive, running smoothly and quiet.
The digital display screen.
The operation can change the parameters at any time, without closing down.
Automatic calculation and display of centrifugal force RCF.
Adopts electronic locks, enhanced security.
Gather washing and drying, dehydration, concentration and filtration together to achieve solid-liquid separation.
The special combination of vibration, automatic balance, low noise.
Solved filtration pressure, vacuum filtration and low efficiency.
The separation function is continuous, free and independent filter cartridge loading, high separation efficiency.
Beautiful appearance, light weight, high efficiency.
The dry degree is more than 90%.
