

ENVIRONMENTAL MONITORING INSTRUMENTS BKF-4801

ENVIRONMENTAL MONITORING INSTRUMENTS BKF-4801

Y09-010 PURE WATER SMOKE GENERATOR

SPECIFICATIONS

Model	BKF-4801
Power supply	AC 220V 50Hz
The best water capacity	2500ml
Overall dimension	200x205x300 mm
Weight	9Kg
Input voltage	DC 45V
Rated power	210W
Into the mist quantity	≥7000ml/h
Atomized the particle size	1-10%
Output speed	0.95m3/min
The best water content	1200 ml
The best spray water	28mm
Fogging height	120~150mm
Apply water conductivity	0.15~1.00 ms/cm
Alt Name	Pure Water Smoke Generator

APPLICATIONS

Suitable for capturing and recording airflow patterns in clean factories and local clean environments. According to ISO14644-3 and the new GMP, it is necessary to evaluate the airflow direction for the acceptance of clean workshops. The pure water smoke generator can generate high concentration of water vapor (particle size range: 1-10um with a concentration of over 80%), high visibility, and absolutely pollution-free. When water vapor is emitted in the clean room, there are no measurable residual substances. Is suitable for semiconductor and pharmaceutical clean workshops.
